## Science Fair

Bright charts, models standing tall,  
Questions buzzing through the hall.

Wires, circuits, colours shine,  
Curiosity at its prime.

Ideas spark with “what” and “why,”  
Dreams take wings and learn to fly.

Mistakes teach us, trials inspire,  
Science lights a thinking fire.

From tiny seeds to stars so far,  
Every child becomes a star.

The science fair shows one thing clear  
Learning grows when we explore  
and dare.
